

WHAT'S NEW IN RADAROPUS 2.2.16

New implementations and improvements of version 2.2.16, as compared to 2.2.12

RadarOpus **2.2.16** will be delivered as a **Live Update** (onto version 2.2.12, 2.1 or 2.0), as a **full installer** on a USB stick, as an ISO and as a zip file (not as a DVD).

This version offers the following new features as compared to 2.2.12:

- The **timeout** after which the user is asked to again insert the password has been changed from 1 to 3 hours
- Improvements of the **Family Finder**
 - The Search box can also be used to **find information about remedies**
 - To **distinguish 2D from 3D remedies** and families, all entries are in black or red color, respectively
 - **Right clicking on a remedy** opens the known ways to find more information about that remedy
 - Words entered in the Search-Words box are **highlighted** in the Information box
 - The **search query** can be saved and restored
 - Thematic information about **142 families** and **484 rare remedies**.
- In the **analysis**, after hiding remedies, define what happens when new symptoms are added
- One-click access to Scholten's **Qjure** remedy information
- Set **default symptom clipboard names**
- Hide/show all toolbars and the clipboard panel in one click
- Synthesis can be limited to **fixed Repertory views**
- Version 2.2.16 is the basis for a new **Demo** version
- An **interactive welcome screen**
- New **map for Vermeulen's Materia Medica**, featuring his new documents
