NEW VIEWS

Repertory views have been thoroughly reviewed and completed with the new remedies and authors.

PERSONAL CHAPTER

Here you can add anything you feel would **enhance your practice with total freedom!**

I am very excited about Adonis, which has become my repertory. Most of Massimo's additions and so many new remedies. Mineral, plant and animal family analysis made easy. This has been a huge task superbly accomplished. Thank you.

Geoff Johnson, UK, June 21, 2022
